

## **Project Risk Management Professional – Charleston SC**

### **Job description:**

Security Risk Solutions, Inc., a professional information security services company in Mt Pleasant, SC, seeks an Information Assurance and Project Risk Management Professional. Candidate must have both Information Security and Project Risk Management experience. The candidate for this position will possess in-depth knowledge and understanding of Federal and/or Department of Defense IA policies and information security risk management principles and techniques. Successful candidate will have considerable experience implementing Project Risk Management programs (per PMBOK) and Information Security Risk Management methodologies (e.g. NIST 800-30, OCTAVE). Experience with HIPAA Security requirements and prior experience in health information technology a plus.

Candidates must have excellent written and verbal communication skills, be able to represent the company in the best light possible, be willing to travel, and be able to interact comfortably and confidently with individuals at every level of each organization.

### **Position Overview:**

Lead organizational and program risk assessment activities in a Federal Healthcare environment. Directly interface with the customer to help conduct organizational, project level and system level risk assessments and develop appropriate mitigation strategies to address identified risk. An ability to gather and organize technical information about an organizations mission goals and needs, existing security infrastructure, and ongoing programs in the organizations' environment will be necessary in order to perform risk analyses and mitigation planning activities.

Detailed knowledge (e.g. Systems Requirements, Operational Requirements, Test and Evaluation, and/or Training) in several of the following areas is required:

- Understanding of business security practices and procedures
- Information Security Risk Management methodologies
- Project Risk Management techniques
- Business impact analysis
- IT contingency planning
- IT Governance, Audit and Compliance
- Knowledge of a variety of security tools
- Hardware/software security implementation
- Different communication protocols.

Flexibility, a willingness to learn, and a creative approach to problem solving are paramount to this candidate's success.

### **Qualifications:**

- Bachelors degree required; B.S. in IT, Information Systems Security, or related field desired
- Minimum 6 years direct information assurance/information security experience relating to Systems Requirements, Operational Requirements, Test and Evaluation, and/or Training.
- Hold or be able to attain 1 or more of the following security certifications within 6 months: PMP, CISSP, CISM
- In-depth knowledge of Federal and/or Department of Defense information assurance and information security policies strongly desired
- Excellent analytical, written, oral communication skills
- Must be a team player, diplomatic, and decisive
- Strong organizational skills

- Strong problem-solving skills and attention to detail
- US Citizen with ability to obtain security clearance is required

**Salary:** Commensurate with experience.

**Application Procedures:**

Cover letter, salary requirements, and resume should be submitted to: [jc@securityrs.com](mailto:jc@securityrs.com)

**Application Procedures:**

Cover letter, salary requirements, and resume should be submitted to: [jobs@securityrs.com](mailto:jobs@securityrs.com)

**E-Verify:**

If you are selected for this position, the documentation that you present for purposes of completing the Department of Homeland Security (DHS) Form I-9 will be verified through the DHS "E-Verify" system. Federal law requires DHS to use the E-Verify system to verify the employment eligibility of all new hires, and obligates the new hire to take affirmative steps to resolve any discrepancies identified by the system as a condition of continued employment. Security Risk Solutions, Inc. is an E-Verify Participant.
