

## **DoD Healthcare Information Assurance Analyst – Charleston SC/Washington DC**

### **Job description:**

Security Risk Solutions, Inc., a professional information security services company in Mt. Pleasant, SC, seeks an Information Assurance (IA) Analyst capable of supporting various IA domains within a Federal healthcare environment. The candidate for this position will possess in-depth knowledge of applicable Federal law (e.g., FISMA, HIPAA), Department of Defense (DoD) processes (e.g., Risk Management Framework), Federal Agency guidelines (e.g., NIST 800-53), and related security control compliance measures. The candidate must be able to show direct experience evaluating compliance against these measures via the Assessment and Authorization (A&A) process. The candidate will further demonstrate hands-on experience identifying and executing requisite compliance of operational, management, and technical control measures; including use of tools such as Assured Compliance Assessment Solution (ACAS) and Enterprise Mission Assurance Support Service (eMASS).

Candidates must have excellent written and verbal communication skills, be able to represent the company in the best light possible, be willing to travel, and be able to interact confidently with individuals at every level of each organization.

### **Position Overview:**

Directly interface with the customer to help conduct IA compliance and technical risk assessment and mitigation activities in a Federal Healthcare environment. An ability to gather and organize technical information about mission goals and needs, existing security infrastructure, and ongoing programs in the organizations' environment will be necessary in order to identify, advocate and execute enterprise-level strategy and tactical-level (e.g., system-specific) risk analyses and mitigation activities.

A working knowledge of several of the following areas is required:

- Must have working knowledge of Federal regulations and guidelines such as OMB Circular A-130 Appendix III, HIPAA, NIST SP-800 series Security Guidelines, FIPS Security Publications..
- Demonstrated strong experience in developing A&A packages as part of the RMF process.
- Demonstrated strong experience in information security assessment activity such as onsite Security Test & Evaluations (ST&E) using DoD, Federal Agency, and Service-specific instructions, regulations, etc.
- Knowledge of DoD IA scanning tools preferred (e.g., eMASS, ACASS, Retina, Nessus).
- Must be able to interpret and effectively communicate regulatory guidance, identified vulnerabilities, and responsive recommendations to a wide audience

Candidate must have excellent analytical, written, oral communication skills, be a team player, diplomatic, and decisive. Flexibility, a willingness to learn, and a creative approach to problem solving are paramount to this candidate's success.

### **Qualifications:**

- Bachelors degree required; B.S. in IT, Information Systems Security, or related field desired and at least 4 years experience in performing A&A and associated risk assessment activities; OR
- Minimum of 8 years technical experience with commercial grade/production networks and A&A and associated risk assessment activities

- Hold or be able to attain 1 or more of the following security certifications: CISA, CISSP, CISM
- US Citizen with ability to obtain security clearance is required

**Salary:** Commensurate with experience.

**Application Procedures:**

Cover letter, salary requirements, and resume should be submitted to: **[jobs@securityrs.com](mailto:jobs@securityrs.com)**

**Additional Information:**

This is a key position in an established and growing organization with an excellent reputation. Opportunities for growth are substantial, including the potential to build and manage a team supporting multiple clients and contracts. See **[www.securityrisksolutions.com](http://www.securityrisksolutions.com)** for more information about the company.

**E-Verify:**

If you are selected for this position, the documentation that you present for purposes of completing the Department of Homeland Security (DHS) Form I-9 will be verified through the DHS "E-Verify" system. Federal law requires DHS to use the E-Verify system to verify the employment eligibility of all new hires, and obligates the new hire to take affirmative steps to resolve any discrepancies identified by the system as a condition of continued employment. Security Risk Solutions, Inc. is an E-Verify Participant.
